The multi-talented actress and singer-songwriter **Karen David** is giving her fans a preview of her upcoming EP this week, with a YouTube premiere of her single **Daydreamer**. The British-Canadian star is showcasing the upbeat track as a taster from her forthcoming self-penned EP **Dust to Stars**.

The infectious track features cheerful lyrics set to a fabulous upbeat melody. The song's accompanying video shows Karen in full-force, with her amazing energy and vivacity bringing the fun-filled track to life! *Daydreamer* is a reflection of Karen's unique indie-pop sound and is a fun preview of what to expect from *Dust to Stars* – an EP which provides the perfect summer sound.

The past few months have been hugely exciting for Karen, who has spent the last year jet setting across the globe. She has recently finished filming for brand new British Independent film *Amar, Akbar & Tony*, releasing in 2014. Karen then returned to LA to put the finishing touches on *Dust to Stars* releasing this August. The EP is a compilation of five tracks, including title song **Dust to Stars**, **Connected**, **Heartstrings**, **Kaleidoscope** and **Daydreamer**.

Speaking on the release Karen David says: *"I can't wait to share the EP Dust to Stars with all my fans, which is why I'm giving them a little taste with Daydreamer. The track is really a fun, summer song and I had a great time filming the video. It's definitely a feel good track for everyone to enjoy. The reaction so far has been great and I'm looking forward to performing it live in London at the first of my live sessions in August."*
